Smaller - Smarter - Stronger

Modular design, one system fits all

“The only crane camera manufacturer with industry expertise.”

Eyes and ears where you need them.

What is BlokCam?

BlokCam is a wireless system that can be quickly and easily deployed to the hook block or boom tip of a crane. The sound and view from below the camera is then transmitted and received wirelessly via the antenna systems to a screen in the cab. This allows the operator to see and hear the load and surroundings, giving an unobstructed, live, audio-visual feed of the critical areas that working in the blind would never allow.

The benefit of using BlokCam

- Reduces hazards
- Confirms load security
- Reduces the amount of blind lifts
- Improves communication
- Helps reduce stress
- Reduces impacts and collisions
- Improves lifting times
- Compatible across a wide variety of cranes

Design Overview

- Easy and quick to install; can be fitted within an hour
- Uses high powered neodymium magnets
- The lens is auto-focus and always gives clear views of the load and surrounding area below the hook
- HD 1080p resolution
- Audio from sensor to cab
- Optional single and split screen mode with additional cameras
- Long range transmission
- Record on loop for up to 30 days
- Purpose built aluminium housing
- Built in lanyard anchors
- Safety lanyard provides secondary security tethering
- Hands free operation
- Multi positional sensor for variable views
- LED indicators
- Two batteries per system
- Non hazardous battery
- 12 hour battery life ³
- Multi-voltage AC and DC inputs
- Durable all-weather design, manufactured to IP67 rating
- -20°C to 55°C (-4°F to 131°F) operating temperature
- Optional mobile app and 4G live streaming ²
- CE and FCC Approved

New Model X components

1. Subject to Crane Make/Model. 2. Subject to availability of a suitable mobile network, data charges apply. 3. Battery life varies by use and configuration, two batteries per system. 4. Size and weight varies by configuration and manufacturing process. 5. Statement accurate on 02/11/2016. Specifications accurate on 02/11/2016, subject to change without notice. 6. IP67 rating excludes IP65 audio sensor. *Actual product may differ from rendered image.
